Summary

Christopher is approaching a decade of experience crafting engaging and intuitive solutions for e-commerce and finance. His designs have reached millions of users. Christopher volunteers his expertise by mentoring peers through ADPList and is rated in the top 10% of mentors in Canada, with over 50+ glowing reviews.

Accomplishments

Designed an improvement to the BMO mobile banking app that increased feature sign-up by more than 200%

Netted BMO more than $1 billion in new loans in first six months using internal branch lending software that I designed and developed

---

Awards

Won the 'Fintech for Good Award' at the 2019 Banking Technology Awards

Placed third at a IBM hackathon

Experience

2022 - Present

Senior Product Designer & UI Developer
Freelance
- Operating as a self-employed professional using my design and development skills

2021 - 2022

Senior Product Designer
Shopify
- Led implementation of a new set of feature for integrating metafields into customer segmentation
- Enhanced customer segmentation functionality before launch through user interview & testing sessions

2021

Senior Product Designer (Design Systems)
BMO Financial Group
- Bridged the gap between design and development in the design system space and guided different stakeholders in a new role in the organization
- Identified high impact opportunities and built components that underpin all user experiences at BMO through the design system
- Ensured consistent patterns across design experiences and strived for end-product quality
